The question is what is the minimum area to be adopted in the case of grants of land for Coffee cultivation? No rule seems to have been laid down on the point. In practice, 10 Acres seem to have been taken as the minimum - At the Darjeeling Assembly of Oct. 1890, it was resolved that the minimum area for new land would be fixed at 5 Acres - No orders have yet been issued in pursuance of this resolution. The file on the subject is perhaps with the Councillors. The decision on the point will have to be embodied in Rule XXVIII of the Land Revs. Rules.

Papers ending with the Kadur Dy Cs' no 83 dy 17th May 1892

The papers relate to various applications for waste lands for Coffee cultivation.

The original Cases have all been disposed of.

The general question (raised in the Kadur Dy Cs' no 595 dy 13 Decr 1892) regarding the minimum area for Coffee lands has to be decided and orders issued.

The question has practically been decided in the Devanhalli case (after due consultation) given in Report no 32 of the Representative Assembly of 1890 (Enclosed pink slip)

Only final orders have to issue. I submit back

a draft on the subject

It seems unnecessary
to wait any longer —

There is at present
no rule fixing the mi-

however ten acres is the

Mrs -

For my part I do not see how this case falls under the exception in Sec 109 - There is no minimum fixed for Copper land - This is not a survey No. which has been already made of less extent than such min.m - Govt have not yet given authority generally nor in this particular instance in this behalf - Each this is not a survey No. separately registered in the survey records -

Some of the precedents put in are not to the point - And as to the others they only show the necessity for the minimum rule not justified - Otherwise the work of Sanctioning in the Govt Office & of subdividing in the Survey Supts Office will be enormously increased - Col Grant has offered remarks in the matter

The Chief Secretary
to the Government of Mysore

Sir

I have the honor to state that the Government not having prescribed a minimum area for the grant of coffee Lands out of a big survey number, difficulty is often experienced in the disposal of applications for coffee lands of small area.

The practice had been till lately to entertain applications for not less than 10 acres out of a big number provided the remaining area was sufficiently large and conveniently situated.

The Government having in Proceedings No. 4807-14 Cor. 95 dated 18th July 1892 ruled lately in general terms Kharab lands should be a

and freely given to those who may ask for them, Col ——— Campbell has issued instructions to Talukdars making the Govt orders applicable to coffee lands as well.

I see that the Survey Supt has in a case, which went up to him from this district with results of resurvey, taken objection to the grant of coffee lands measuring less than 5 acres, apparently relying on Govt orders No 9738-9/281 dated 1st Dec/90, an abstract of which is printed in the monthly Volume of Proceedings for December 1890 ✓ Spare Copy

I am myself disposed to think that the unrestricted grant or grant of inconveniently small blocks will in cases of coffee lands seriously affect the interests of Government, as in the case of fresh applications the application may be of such a small extent as to be just sufficient to spoil the rest of the number coffee cultivation. I request there the decided orders of Govt

on

on the subject at an early date.

I am however of opinion that the suggestions made by Col. Campbell in his letter No. 182 of 8th July 1887 (yet under reply) will meet all ends.
